13oz single-sided banner digitally printed on a sturdy and durable material that lasts up to 2 years outdoors. The matte finish is great for a situation where glare is a concern.

Gloss Banner

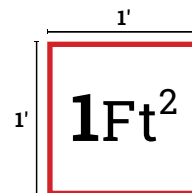

13oz single-sided banner digitally printed on a sturdy and durable material that lasts up to 2 years outdoors. The finish provides a glossy effect on the printed surface.

Mesh Banner

8oz mesh banner with wind reduction. Perfect for aggressive weather conditions. Holes count for 30% of the surface which allow air to blow through.

Double Sided

18oz custom double-sided banners are printed on both sides for maximum visibility. Most commonly used for outdoors where people can see them on either side.

What is Screen Printing?

Screen printing is a printing technique whereby a mesh is used to transfer ink onto a substrate, except in areas made impermeable to the ink by a blocking stencil. Each color is applied using a different stencil, one at a time, combined to achieve the final look. Screen printing is the best option for designs that require a high level of vibrancy, when printing on dark shirts, or for specialty products.
